Challenging
conventional thinking
through great design

Decoration / Vases / Storage / Hooks / Mirrors / Tableware / Textiles / Clocks / Ceramics

Normann Copenhagen is a Danish design company with the mission to create original and innovative products in a simple and contemporary design that withstands the test of time. Or in other words, to challenge conventional thinking and make the ordinary extraordinary through great design.

Established in 1999 by Jan Andersen and Poul Madsen, the Normann Copenhagen brand encompasses a wide and continuously growing collection of furniture, lighting, textiles, and home accessories.

Accessorizing

Enthused by spirited, confident individuals, who value quality and originality, Normann Copenhagen offers a vibrant selection of carefully thought-out accessories for all around the home. A wide-ranging collection of design favorites that find common ground in a ubiquitous element of play.

This element of play takes abode in the silhouette that makes you look again – the charming, inspiring and hospitable character of each design. Play resides in the surprise – the unexpected multi-functional or aesthetic twist. Play can be found hiding in the tactile texture that makes you want to touch and feel – delicate ripples in glass or an intriguing textile weave. Play is interwoven into the colors – sophisticated neutrals, powerful brights, and muted, intermediate shades are put together in ways you wouldn't expect.

Play is in the mix and the real fun starts when you become involved. Because accessorizing is personalizing, and the personal is essentially what makes it nice to be home.

We hope to inspire you!

Shorebirds

Elegant and Playful Birds

Since its introduction in 2014, the flock of Shorebirds has grown larger and larger. These characterful coastal birds are designed by the Icelandic designer Sigurjón Pálsson and come in three sizes.

The largest of the birds is inspired by the curlew, with its long neck and distinguished, downward bent beak. It is an aristocratic creature. Its long legs take slow, well-considered steps while looking cautiously around. The middle-sized bird is alert and active like a redshank. This elegant bird is often to be found with other wading birds. Finally, we have the sandpiper; A sociable little bird, often to be found in a large flock.

Little Bird

Tweet Tweet

Little Bird is a range of irresistible decorative figures designed by designer Jan Christian Delfs. The simple, but expressive, design represents a well-balanced mix of purity, abstraction, minimalism, and, not least, cuteness. The birds come in six different sizes and as a clear collector's item, Little Bird is sold individually so the flock of birds can continuously grow.

Puffin

Harbingers of Spring

Designer Sigurjón Pálsson has portrayed the puffin, which marks the coming of spring each year in his Icelandic hometown. With this endearing little wooden figure, he has captured the sympathetic and slightly melancholic expression that makes this charismatic bird so loveable.

Tide Vase

Waves of the Sea

The raw nature of the Danish North Sea, with its strong winds and currents, has served as inspiration for the Tide Vase. Its dynamic shape mimics the movement of waves while its grooved surface resembles ripples in the sand, creating a semi-transparent effect.

Tombola Vase

A Game of Chance

Tombola is a game of chance. A pool of tickets is mixed together, after which an arbitrary set of tickets is pulled out at random. The Tombola Vase came to life in much the same way. Building blocks based on eight abstract shapes were combined in a random order to produce the glass vase's unique surface structure. The reliefs in the colored glass play with light and shadow, giving Tombola an artistic character.

Step Vase

Step by Step

The shapes of the Step Vases have been built up – step by step – from horizontal layers, which come together to give the vases their gorgeous surface texture and dazzling appearance. Soft and flowing silhouettes provide contrast to the pattern's straight lines, creating balance in the design. As the vases are not completely circular, the nature of each vase is in constant flux, all depending on your angle of view.

Heima Candlesticks

Created for Coziness

Inspired by the Nordic culture of using candlelight and the cast iron arts and crafts of the 1950s, Francis Cayouette has created candlesticks that feature a recognizable design and pay tribute to industrial craftsmanship and to the Nordic traditions. The uneven, almost cold surface gives the Heima Candlestick character, while the rounded shapes make the design modern. The minimalist candlesticks are sculptural and make an elegant and stylish accompaniment to both modern and classic decors.

Analog Magazine Rack

A Modern and Underplayed Magazine Rack

Analog has a modern and underplayed design, which allows beautiful printed matter to come into its own. The inspiration for Analog is taken from the digital world. The magazine rack's hole-patterned sides are inspired by the computer equipment of the 90's that had similar perforations for cooling down the electronics.

Krenit Collection

Iconic Design

With a simple and pure expression, the Krenit range is a contemporary classic that enables a perfect interplay between function and aesthetics. Its characteristic sharp edge creates a balance between material and form, giving the bowl its classic yet contemporary expression. Its shape has set the trend for later designs of bowls, and the shape of the bowl is just as perfectly suited for the home today as back in 1953.

Junto Collection

Fiesta de Tapas

Simon Legald's Junto series is inspired by traditional Spanish ceramics. The design is both rigorous and soft, with a hearty, hand-made feel from its rustic, fired terracotta. The range adds up to 12 pieces making it equipped for many enjoyable dinners.

Use Junto separately or mix and match it with your existing porcelain. The earthy red colors of fired terracotta bring depth and glow to the interior, and introduce a touch of southern warmth to your table.

Snooze Bed Linen

A Reflection of a Mood

The Snooze Bed Linen range revolves around what we do in bed. It comprises five different sets of bed linen in dreamy colors with small embroidered symbols. Each represents a specific mood that applies to how you feel in bed. The embroidered symbols differ from pillow to duvet but interact as a little tale, but you can also turn the embroidery downwards and you have yourself a simple, plain-colored bed linen set.

Tales of Wood Office Bin

Decorative, Wooden Office Bin

The Tales of Wood office bin adds exclusivity and elegance to both the home office and the workplace. A refined, tapered shape stands in contrast to the organic curves of the design, while lending a light and stable expression. Everything unnecessary has been removed from the design in order to focus on the silhouette and material itself and bring out its best properties.

Curve Hooks

Simple, Decorative and Functional

The Curve Hooks designed by Peter Johansen have a classic, uncomplicated and intuitive shape of a hook. The faceted rounding breaks up the simple feel and gives an edge to the slightly oversized design. Curve is a hook in its most traditional and symbolic form. It can easily accommodate many kinds of items, such as clothes, bags and accessories.

Plump and Rounded Shapes

Bold is a graphic wall clock, designed by the Swedish designer Jonas Wagell. The design clearly references the world of typography, in which a font can be made bold to stand out and attract the eye.

That's where the clock gets its name, Bold, from. The face and hands of the clock have plump, rounded shapes that soften up the otherwise minimalistic and industrial design.

Geo Vacuum Jug

Geometric, Edgy Design

A minimalist design featuring masculine, sharp edges fused with bright and lively color combinations. Geo Vacuum Jug designed by Nicholai Wiig Hansen has a rigid and geometric shape which has been stripped of all unnecessary details to unveil a stylistic design, and holds warm and cold drinks in a stylish way.
